APR 16 2019

Mr. Muhammad Rizq
Chief Executive
AZQA INSTRUMENTS
Sadaye Shehar Road,
SIE Sialkot
51310 Pakistan

and

Mr. Mohamad Ashraf
Quality Management Consultant
Near Makki Masjid
Masir Road
Sialkot, Pakistan

Dear Messrs. Rizq and Ashraf:

This is to acknowledge receipt of a March 1, 2001, letter from Mr. Mohamad Ashraf certifying the compliance of AZQA INSTRUMENTS Industries (AZQA) with the Food and Drug Administration (FDA) Quality System Regulation of 1997, which includes the current good manufacturing practice (CGMP) requirements. The Quality System Regulation is set forth in Title 21, Code of Federal Regulations (CFR), Part 820. The consultant certification confirmed that a quality system audit of Meajmy was performed February 29, 2001.

The quality system audit report states that manufactures reusable surgical instruments. Based on our review of the audit results and certification, (AZQA) has been placed on Attachment A of Import Alert #76-01. You may begin exporting devices to the United States (U.S.) that were manufactured after the consultant certified your firm's compliance with the CGMP's; however, your shipments may be subject to the guidance outlined in Attachment A of Import Alert #76-01. After five consecutive shipments comply with the import alert guidance, you may request your firm be placed on Attachment B. Submit your request directly to the FDA District office for their concurrence and further submission to this office for action.

The placement of the firm on Attachment A is limited to devices manufactured under the name of - AZQA INSTRUMENTS Sadaye Shehar Road, SIE Sialkot 51310 Pakistan. In the event the manufacturing name and/or address change, FDA requests that notification be immediately forwarded to this office. A change in the name and/or address of the manufacturing facility without notifying FDA will result in a re-evaluation of the compliance status of your firm.

Page 2 - Messrs. Rizq and Ashraf

The FDA is assured by both the consultant and (AZQA) that no devices will be imported into the U.S. that are not specifically manufactured by AZQA. This includes other manufacturers in Pakistan completing specific manufacturing processes for AZQA, and other manufacturers in Pakistan providing their devices to AZQA, for importation into the U.S.

The decision based on your consultant certification will remain in effect until such time as FDA is able to visit Sialkot, Pakistan for an inspection of your facility. During this inspection all corrections and procedures will be evaluated and confirmed. Any new CGMP deviations, or any uncorrected deviations that were previously certified to, may result in a re-evaluation of the compliance status of your firm, AZQA, including the possibility of removal from Attachment A.

We request that a quality system follow up audit be performed at AZQA, within six months of exporting devices to the U.S. He will be advised of the timing of FDA's inspection schedule.

AZQA, has an ongoing responsibility to conduct internal self-audits to assure you continue to maintain conformance with the Quality System Regulation.

If you have any questions regarding this correspondence, or need further assistance, please contact me at (301) 594-4595 or FAX (301) 594-4636.

Dear Mr. D Iqbal,

MEDICAL DEVICES REGULATION 2002; REGULATION 19
Registration of Persons Placing Medical Devices on the Market

This year for informing the Competent Authority of the details of Manufacturers located in Manufacturers Address:-
Name:-
for whom you are acting as the authorized representative and for supplying the medical device information.

Your registration has been recorded based on your declaration that you have determined that the devices fall within the definition of "medical device", and that you have classified it/ them as falling within Regulation 19 taking into account the intended purpose(s) and mode(s) of action. In accepting your registration, I should make clear that the Competent Authority does not examine each individual notification and therefore cannot and does not necessarily endorse those determinations. Neither does this letter represent any form of accreditation or approval by the UK Competent Authority.

Your registration is based upon your declaration on the RCG form and means that:

For Manufacturers of Class I medical devices, Assemblers, and Distributors: You should now be operating under the Medical Device Directive and the above Regulations for the products you asked us to register, by fully complying with the essential requirements, CE marking those products or labelling them as such.

For Manufacturers of Custom-made devices: You should be ready to claim compliance with the Directive and Regulations and should be manufacturing custom-made devices in accordance with their requirements.

If you stop placing devices on the market or if you are not complying with the Regulations you should inform us so that we can amend our records. You should be aware that it is an offence to place on the market CE marked devices that do not comply with the regulations.

An Alternative Agency of the Department of Health

The information you provided has been recorded against the reference number shown at the top of this letter, which we ask you to quote in all future correspondence and communications.

Please inform us of any changes to:

- The company information
- Additional generic group of devices (any individual products within an existing generic group)
- Discontinuation of a generic group of devices.

Please use RCG, the Registration form, to tell us about any of these changes.

Thank you for registering the following generic groups of devices:

Class I Devices:
Dental Instruments (Re-Usable & Non-Powered)
Surgical Instruments (Re-Usable And Non-Powered)

Custom Made Devices:
None

Products Covered By Article 12:
None

Should you have any queries regarding your registration please contact us on the telephone number given at the top of this letter.

Yours sincerely

Rob Higgins

The SimpleClean™ mechanism makes cleaning of the Rongeurs an easy matter

To open the SimpleClean™ mechanism pull the handle, turn the release and lift up the pusher.

The coloured release help to recognize more easily the individual widths of the jaw.
